2.3.1 Student centric methods, such as experiential learning, participative learning and problem solving methodologies are used for enhancing learning experiences and teachers use ICT- enabled tools including online resources for effective teaching and learning process

STUDENT CENTRIC TEACHING-LEARNING METHODS

Participative

Seminars and workshops
Extension lectures
Peer teaching
Debates, Quizzes and Group Discussions

Experiential

Field Trips
Projects & Assignments
Simulations
Visits
Service learning

Problem-Solving

Brainstorming
Mind Mapping
Thought simulation
Treasure Hunt
Spellathon
Venn Diagrams

- **BETTER UNDERSTANDING OF CONCEPTS, CRITICAL THINKING AND CREATIVITY**
 - **PROMOTE OUTCOMES LIKE MOTIVATION, RETENTION AND BETTER ACADEMIC RESULTS**

The institution is committed to the holistic development of its students and has adopted a student-centred approach where learners are put at the centre of the educational process and are empowered to take charge of their learning.

EXPERIENTIAL LEARNING

Engaging students in active and hands-on experiences, rather than passive and theoretical ones, the students were encouraged to learn by doing.

1. **Projects and Assignments:** Students were assigned to work on a problem or a task that requires research, planning, execution and presentation, such as creating a product, conducting an experiment, designing a website, etc. Students of MCom completed projects as a part of their syllabi.
2. **Simulations:** Creating scenarios that mimic real-life situations, such as mock trials, debates, role-plays, etc. were organised.
3. **Field Trips:** Field trips were conducted during the last five years so that the students could observe, interact and learn from real-world situations. 35 students of BA-III studying Functional English as an elective subject completed on-the-job training as a mandatory part of their syllabi and gained insight into a multitude of aspects of business communication.
4. **Service-learning:** Integrating community service with academic learning, such as volunteering at a local organization during COVID-19 and raising awareness about a social issue, etc.

PARTICIPATIVE LEARNING

The institution has developed strategies through participative learning to promote diversity, inclusion, empathy and social skills among learners. These strategies encourage active involvement in the learning process, rather than passive reception of information. By sharing their ideas, opinions, perspectives and experiences with others, learners can better understand and appreciate different viewpoints.

1. **Seminars, extension lectures, and workshops** allow students to actively engage with the content, interact with the instructors and peers, and apply their knowledge to real-world problems.
2. **Peer teaching**
3. **Debates, Quizzes and Group Discussions**

PROBLEM-SOLVING

Students were allowed to analyze, synthesize, evaluate and apply knowledge from various sources and disciplines. This methodology helped in developing analytical, creative, strategic and decision-making skills.

1. **Brainstorming** using the 5Ws technique is commonly used in the subjects of languages and ideas are generated and developed further.
2. It is followed by **mind mapping** which serves as an effective tool for finding linkages and building structures that reveal distinct patterns in the topic under review.
3. When **simulating thoughts**, learners create detailed scenarios and evaluate their accuracy.
4. Engaging in activities such as **Scavenger hunt, Venn diagrams, Spellathon, Pictionary**, etc. in both individual and group settings.

MAKING OPTIMUM USE OF ICT FACILITIES

1. Make use of online platforms like Google Classrooms, Google Meet, Zoom, Webex, etc.

2. Have classrooms and academic spaces that are ICT-enabled.
3. Purchased a G-Suite software platform to conduct online classes with good accessibility during COVID-19. Various extracurricular activities were conducted through this platform to continue the teaching-learning process.
4. Periodically update e-content.
5. Conducted classes, mid-semester and end-semester exams during the pandemic.
6. Practical exposure through YouTube videos and E-PG Pathshala material.
7. Promoted blended mode of learning.
8. The library is regularly updated with online resources, INFLIBNET membership is regularly upgraded, and N-list and allied e-resources are provided free of cost.

SESSION 2018-19

I. RALLIES, CAMPS AND SURVEYS
